

State of Arizona  
COMMISSION ON JUDICIAL CONDUCT

---

Disposition of Complaint 24-347

---

Judge:

Complainant:

---

**ORDER**

November 22, 2024

The Complainant alleged a superior court judge made improper legal rulings, failed to ensure proper service, committed criminal acts, and showed bias during a spousal maintenance case.

The role of the Commission on Judicial Conduct is to impartially determine whether a judicial officer has engaged in conduct that violates the Arizona Code of Judicial Conduct or Article 6.1 of the Arizona Constitution. There must be clear and convincing evidence of such a violation in order for the Commission to take disciplinary action against a judicial officer.

The Commission does not have jurisdiction to overturn, amend, or remand a judicial officer's legal rulings. The Commission reviewed all relevant available information and concluded there was not clear and convincing evidence of ethical misconduct in this matter. The complaint is therefore dismissed pursuant to Commission Rules 16(a) and 23(a).

Copies of this order were distributed to all appropriate persons on November 22, 2024.

---

**From:****Sent:****To:** Commission on Judicial Conduct <CommissionJudicialCo@courts.az.gov>**Subject:** Judicial misconduct complaint.. urgent attention needed

Caution! This message was sent from outside your organization.

This is the beginning of the first and formal complaint against Judge [redacted]. I'm a party to a divorce case that he is presiding over. He is founded a recent ruling that modified decreased drastically almost wiped out my support and wiped out [redacted] of a rear support based on lies nonexistent evidence claiming I posted videos on [redacted] that ruined my husband's chance of getting employment my five-star rated [redacted] year experience top [redacted] that a broker I highly doubt a video if that even existed would even be able to ruin his income to that significant no it wouldn't in fact no employer contact information of the so-called potential employer that didn't hire him because of a video that I posted that I never posted a video about him saying he's a pedophile is not existent ! Judge [redacted] made his ruling based on lies believing an attorney and a doctor. Prejudice and bias and discrimination. For that I'm suffering because he's making wait [redacted] months without even enforcing his tiny [redacted] mo. Judge [redacted] had no right to even override judge [redacted] orders for [redacted] month support. Or to wipe out my back support. He did not have the knowledge he did not have the cases from both sides he was without information to enter that ruling. Plus it was out without jurisdiction and authority because the petition to modify support filed by my husband [redacted] after my petition to enforce support [redacted] that was properly served was not properly served. Judge [redacted] had no jurisdiction to even do anything with that support order. Yet here I am suffering. And it's not so much my suffering as it is my parents desperately trying to support me going without food and their own needs trying to support me because of a judge who had no jurisdiction !

It is criminal and it is illegal. It is almost attempted murder. Judge [redacted] ruling sits textbook torture. And if I had the energy I would definitely file a civil rights violation and discrimination complaint against him and lawsuit. And if I knew where he lived I'd be going to get scraps out of his trash can and sleep on his driveway.! With a poster saying “

I am just a mother and a grandmother who wants to be with her grandchildren and her children but she can't because she doesn't have a penny to her name , her medicine a,can't move her body and she can't speak without crying because of this case .Please tell me where that's Justice?

I have suffered significantly for [redacted] years with no income [redacted] years now and no money since [redacted] because of the fraud conducted by opposing counsel who was my attorney for decades before the divorce. Definitely had a conflict of interest for [redacted] prior representation and wasn't disqualified from the case. ! And the petition that Judge [redacted] used to drastically reduce my support to pennies t was never served to me ! Serious violation the rules of procedure. Every action must be served before depriving me. This concept of having actions served via process server is fundamental .

In fact the default decree was entered and vacated, set aside for lack of service. So why would this petition be valid if it was never served to me.?

And what makes judge [redacted] think he can override Judge [redacted] orders when judge [redacted] on the case for [redacted] years and knew the case and knew the parties. I wasn't particularly fond of Judge [redacted]. He was unfair and he denied every motion too but at least he used common sense.

My parents bought a townhouse for me to be safe and after my ex-husband and his attorneys orchestrated having me beat up in my apartment and dumped in a psych hospital so I would miss his deposition. My parents are [redacted] and [redacted] years old. They are on a fixed income trying to support me because Judge [redacted] listens to lies. I'm supposed to pay them for this townhouse from the arrears support. What gives Judge [redacted] the authority to wipe it out ?

Nothing he doesn't. What's worse is now he's aware of it and he still hasn't tried to rectify it. In fact he's punishing me for his mistakes by saying an emergency hearing a month away. My parents are not going to survive another month and nor am I and this court is going to be held liable and accountable. And how can judge live with himself knowing he would do such a horrible thing to someone who doesn't deserve it. I have done nothing wrong. I have never lied. I've never committed fraud. I haven't committed crimes. I'm set up for everything but I haven't actually done anything. I found a motion for everyone to take a polygraph test. Let's do it. Let's see who's a liar and who's not, let's see who's lying to judge face. The one who will take the polygraph test is my ex-husband. The one he's rewarded and helps seek retaliation for my making a cyber tip to protect everyone's children. It wasn't my children in those videos. I was doing the right thing for society and I've been punished for it. That's wrong. Judge really I pray you will read it. It is in and he is punishing me for trying to protect children. And no I never announced online or you should have made a video saying my husband is a pedophile. In fact I didn't even know about it until last year. I texted my husband about it when I found out. Whatever twisted jokes and games they played, that's not my problem. And if I've been able to go to the hearing of judgments hey I wouldn't say my husband is a pedophile especially publicly because I have grandchildren and children who live with him. Not because he's not one because he is a pedophile but I don't want the world to know it and I don't want my children's friends to know it or teachers to know it.

Of course Judge ignored that too!

The petition to modify or terminate my support better said was not even valid; it was never served. Judge ignores every single thing I say to every family I make. I filed for emergency funding and he's scheduled to hear a month away. My husband's attorneys quit because the judgment was so bad they got scared.

My disabilities, which include severe ( ) such as disorder, , and , are well-documented and recognized by both the federal government and the County Court .. Additionally, I have suffered physical disabilities as a result of domestic abuse, including , , and permanent physical injuries.

Life after divorce I thought the worst was behind me and it wasn't the real nightmare just began and it's continued I have been muted degraded attacked verbally and physically my dog's poison intimidated threatened ignored I've never once been able to present my case or the evidence to an impartial Tribune who actually listened and could understand me clearly. And I add that because transcripts for the divorce trial for my part say indiscernible the judge never heard what I said but may is really based on one side and the recently here we are and years later determine my support shows the judge also didn't understand what I said telephonically because I was running off the road and route to the hearing. So I don't know how they can enter a ruling without hearing those sides and the ruling is clearly unfair and is based on evidence that doesn't exist. And I've sought someone to read this and look at the evidence and no one will and no one has for and years. So every single day I'm trying to find a new way somebody to look at my case and be fair I'm not asking for any favors I'm not asking for anything I'm not entitled to under as a citizen and a human being I just wanted to discrimination to stop and abuse to stop so I can present evidence to someone who's not prejudice I know I look uncomfortable I'm uncomfortable to look at I'm just figured my job ones atrophied 80% from the abuse and I know it's difficult to understand me because of that and because it's two strokes and aphasia and that's why I asked for accommodations that I keep getting denied or delayed and delayed how can I prepare for the case when I physically can't prepare for the case the financially don't have a penny I don't understand that it's just continuing I found the motion for disability discrimination for disability accommodations seven times in this case and now it's recently is delayed again till and I'm sure that will be late again and that hearing is for 15 minutes to go over nine emotions I can't possibly do that I can't afford an attorney and no pro bono boots or community action agencies will help me I've contacted everyone's repeatedly and basically I was told they don't want to take on a -year case with this many violations.

Despite the clear documentation of my disabilities and my repeated requests for reasonable accommodations, the County Court has consistently failed to provide the support and modifications necessary to allow me to effectively participate in the legal process. Specific instances of discrimination include:

**\*Inadequate Response to Requests for Accommodations:\*\*** I have requested various accommodations, such as additional time to file documents, assistance in understanding legal procedures, and modifications to the hearing process to account for my mental health needs. These requests have been ignored or denied without proper consideration, leaving me unable to fully present my case or respond to legal challenges.

**2. \*\*Scheduling of Hearings Without Consideration of My Disabilities:\*\*** The County Court has scheduled critical hearings with little notice and has refused to accommodate my need for additional time or support, despite being aware of my and that are triggered by the legal process. This has exacerbated my mental health conditions and placed me under extreme stress, further impairing my ability to function.

**Denial of Motions Without Explanation or Justification:\*\*** Over the past years, every motion I have filed has

been denied without sufficient explanation. This pattern of dismissals, without any effort to accommodate my disabilities or provide guidance on how to correct any perceived deficiencies, demonstrates a systemic bias against me as a disabled person.

\*Refusal to Assign a Commissioner or Modify the County Court Process:\*\* I have requested that a commissioner be assigned to handle specific aspects of my case, such as spousal maintenance, due to the trauma and emotional distress caused by the ongoing legal battle. This request has been denied, further exacerbating my disabilities and preventing me from receiving fair treatment.M

The failure of judge in the County Court to accommodate my disabilities has had a devastating impact on my life. I have been left without the financial support I am entitled to, causing me severe hardship, including the inability to pay for basic necessities such as electricity and food. The stress of this ongoing discrimination has worsened my physical and mental health, leading to multiple hospitalizations and the deterioration of my overall well-being.

I have recently been advised that around my Suggests I have suffered from more than one . The most frightening part is that I saw “ ” From my heart. years ago my heart was fine. This suggests this relentless severe increasing stress, panic, anger, depression and helplessness is the cause of my heart damage. That this divorce is literally killing me. I can't seem to find a way out. I have worked so hard every single day trying to get back what took internally to get revenge for my cyber tip. This is not just the dollar my portion of two , million dollars in stock proceeds, property sold AFTER I filed for divorce during the pendency of this case and the appeal violating the injunction. The small community assets such as a few retirement accounts, condo in , trust accounts and the inheritance money from told the executor he was going to distribute to me when I “was better”. The inheritance money is believed to be the root of the incapacitated game in this court in to . As it's the only legal way you can keep the inheritance is if I'm incapacitated. And that was funded by taxpayer money. And it's not just money I'm not the crazy dishonest disfigured greedy monster my ex husband has convinced the court I am It's not unreasonable for me to want my husband to give me back my life earnings.

Please try to understand, would you let the man you dedicated your life to take everything you worked for, especially your respect, dignity and reputation and walk away.I can't exist knowing the injustice and I can't let this Injustice take my life and be my children defenseless.

I want that what was I earned and saved it worked for my entire life so I can set up to take care of my children so they're never in this position I'm in as well as opening up finding for people in my situation and represented afraid not trained in law there an answer for attorneys my life stopped when I filed for divorce I thought the worst was behind me after being strangled and often showed frequently choked beaten Jones broken paralyzed abandon and I finally made it to the Court and it got worse! And now my Lord's life span is drastically he's already taking years to court games in the last can you please let me be free and have my money back and just let me be free to try to enjoy the last years of my life and try to mend relationship sir and bonds have been completely severed for me borrowing money or for misunderstandings or me my emotional app for some breakdowns. I'm not unworthy like the court seems to think.

I have been driven to the brink of despair by the continuous and relentless denial of my rights. The County Court actions have effectively imprisoned me in a cycle of poverty, fear, and helplessness, leaving me with no recourse and no hope for relief.discrimination, denial of rights, and systemic abuse that has left me in a state of utter despair. I am pleading for your immediate intervention to stop this ongoing violation of my rights and to provide the justice and relief I so desperately need.

dJudge ruling is filled with discrepancies and biases I have faced during my ongoing legal proceedings. Despite my severe disabilities and documented incapacity, the court has consistently denied me access to the necessary financial resources to adequately present my case. For the past ten years, every motion I have filed has been summarily denied, often without explanation. This pattern has persisted for a decade, leaving me without the means to access essential legal resources, such as websites and consultations, which are crucial for my ability to understand and respond to the complex legal issues in my case.

Given my status as a domestic violence victim and a person with severe mental and physical disabilities, it is especially critical that I have access to the resources needed to seek justice. The lack of financial support has severely hindered my ability to represent myself, despite the fact that the court is aware of my incapacitated status

In stark contrast, taxpayer money has been used to appoint a guardian for me, twice, without any formal evaluation. This action seems not only premature but also unnecessary, particularly when considering that these funds could have been allocated to provide me with the necessary support to effectively present my case.

Even more troubling is the fact that my ex-husband and his attorneys, the very individuals who have caused me harm, were in communication with the court-appointed guardian. This directly contradicts the court's assurances that no such communication would occur. The fact that this did happen, as shown in court records, further

exacerbates my distrust in the process and raises questions about the impartiality of the proceedings.

For nearly a decade, every motion I have filed has been denied, including my recent request for emergency funds. The court is now making me wait over a month to address my request for financial support, knowing that I have no means to survive in the meantime. Given my critical situation, I fear that this delay may be too late, as I am facing life-threatening conditions without immediate financial support.

Furthermore, I am gravely concerned that even after this long wait, my request will once again be denied, leaving me in an even more dire situation. The court's repeated refusals to provide necessary accommodations and support, despite my documented disabilities, have left me feeling utterly trapped, powerless, and desperate.

#### IV. Request for Judicial Review and Intervention

I respectfully request the following:

##### Provision of Financial Support:

I ask the court to allocate funds necessary for me to access legal resources, websites, and professional consultations. This is particularly critical given my documented disabilities and the complexity of my case.

Review of Guardian Appointment: I request a full review of the process by which a guardian was appointed to me, including an investigation into the communication between the guardian and my ex-husband's attorneys. I believe this process was tainted by bias and procedural irregularities.

Audit of Judicial Decisions: I ask for an independent audit of the judicial decisions made in my case over the past decade, focusing on the consistent denial of my motions and the potential violation of my rights under the Americans with Disabilities Act (ADA).

Assignment of a Commissioner: If the court is unwilling or unable to provide the requested financial support, I ask that a commissioner be assigned to handle the spousal maintenance portion of my case, while the judge can continue to handle the property division. This would help ensure that my case is handled with the care and attention it deserves, given my Judge \_\_\_\_\_ is placing my life in jeopardy by continuously denying my requests for financial support. The court's repeated refusal to provide the necessary funds for my survival, despite knowing my critical condition, could be construed as a willful act of negligence, placing my life at serious risk.

I am a disabled, the family court claimed I am an incapacitated individual who has been subjected to severe injustice and discrimination in the legal process. I plead with the court to intervene and correct the systemic biases that have left me without the resources or support necessary to seek justice. The continuous denial of my motions and the court's unwillingness to provide timely financial support has placed my life in immediate danger. I urge the court to take immediate action to rectify these issues before it is too late.

---I have consulted with every pro bono group every lawyer everyone I can find for free every government agency for help every single day I try to find help or work on this case I don't even have a life anymore I now have heart disease scar tissue from two strokes my father had two strokes trying to support me financially waiting for the judge to order him to pay the back support and the out. Hypothyroidism my neck is still broken from my husband's strangling me bringing it in paralyzing me but he liquidated every penny. I have said instead of paralysis in my arms and my legs I can hardly use my hands I can't text to type or use my hands to type I can hardly talk because my jawbone has atrophied 80% since my husband knocked it out and the court stop support since \_\_\_\_\_ I had to stop medical treatment and now I don't even have a jaw bone. I have no medical care. Judge \_\_\_\_\_ is not enforcing the health insurance the judge \_\_\_\_\_ ordered my husband to pay. It hurts just to live ! I'm barely making it I'm not going to make it another month I need help please I don't deserve this this is all retaliation for me making a cyber tip when I found child crimes on my husband's computer in \_\_\_\_\_ that led to an investigation to a criminal case that lasted until \_\_\_\_\_ million dollars in community money bought him dismissal h for procedure error in his identity concealed. He has \_\_\_\_\_ million dollars but now he's saying he's broke and can't afford support ?! Logic indicates that's not true! How it an investigation counts of child pornography on his computer dismissed for a procedural error ? This divorce case is filled with procedure errors. In fact, it's 89% founded by procedure violations. And everyday I'm enjoying more and more from the violations and the deprivation wrongly, unfairly and undeservingly. I filed for this divorce \_\_\_\_\_ and \_\_\_\_\_ years ago. Every single motion I have filed has been denied without explanation. Tell me that's right? I tried to go to a hearing and I ran off the road. My cat was tortured and thrown into the desert to die. My puppies were taken. I don't have a penny to survive on. I can't even get milk or ringworm medicine for my dog.

In fact my husband and his attorneys didn't tell Judge \_\_\_\_\_ about our \_\_\_\_\_ trademarked for his initials with \_\_\_\_\_ billion dollars software development. Or the stock brokers proceeds the year \_\_\_\_\_ he moved out of home for\$ \_\_\_\_\_ million dollars

Furthermore there was no change of circumstances that judgment party entered that ruling. My husband is a drug addict his medical license it was on probation when the divorce trial took place and when the divorce decree was entered that's not a change of circumstances. In fact we made more money during administrative work having residence to our surgeries then my husband made doing surgeries himself. Furthermore plastic surgery is not our

biggest source of income it's software developing. So whether the patients like a doctor has nothing to do with our income. And then judge \_\_\_\_\_ said that respondent still owes a certain amount to the surgery center. That's not what Judge \_\_\_\_\_ was talking about when he ordered him to pay from the sale of the building. My husband was going to be ordered to pay a lump sum of support from the sale of our building that is owned by \_\_\_\_\_ that houses our surgery Center, within \_\_\_\_\_ hours after that hearing so judge \_\_\_\_\_ could not enter the order my husband sold the building talking \_\_\_\_\_ or more cash. That is why Judge \_\_\_\_\_ told him to pay the support from even warned him not to " \_\_\_\_\_." And he wrote that in a minute entry on the record and judge \_\_\_\_\_ should have been aware of that. Judge \_\_\_\_\_ ruling makes no sense it's illogical and shows his lack of knowledge.

I can't write anymore my hands are paralyzed it's taking me \_\_\_\_\_ hours to write this to you I just pray and beg you to please do the right thing and help me.

Respectfully
