Subject: Report: Judge Felony Perjury and related crimes

Caution! This message was sent from outside your organization.

This is a multi-agency criminal felony and professional misconduct report regarding Judge [REDACTED] DOB [REDACTED] His Arizona State Bar Number is [REDACTED].

This afternoon I am rushing because I have spent far too long trying to get basic information from the [REDACTED] Office, and the [REDACTED], as to how to submit this email, with no responses from them. I have recordings of my efforts and will publish those if we continue being ignored as the business week commences.

It is also taking a long time to submit documents because a huge number of the documents have been purposefully hidden from me so that I can't effectively report Judge [REDACTED] crimes and other misconduct, nor the associated cover-ups, threats and misconduct by the government and quasi-governmental agencies on his behalf. After printing some documents the various courts have allowed me to access, I am submitting those bits and pieces quickly so I can clean up the hard copies of the attached paperwork before picking my son up in just a few minutes. I don't wish for him to see these, even though he is the primary victim of Judge [REDACTED] crimes. That being said, I may end up waiting until after he goes to bed to hit "send" so I can do a quick proofreading under these self-imposed time constraints to save our son from any stress related to this crime / misconduct report, itself.

Partial, recent chronology of Judge [REDACTED] felonies; more than enough to get all the relevant agencies started - more than enough probable cause and more than enough prima facie evidence of misconduct. I'm including a bit of additional evidence regarding my ability

to report crimes against Judge _____, so that these same agencies are not be tempted to punish us even more than they already have for trying to seek justice of any kind:

- Judge _____ slipped a note to Judge _____ - who is the subject of Judge _____ Court case _____ - seeking to be heard regarding the potential eviction of his son, _____ from _____ Judge _____ mentioned that Judge _____ has long-standing post-Decree proceedings (_____) and denied his request to be heard in the eviction proceedings, _____ . Judge _____ specifically said that Judge _____ dragging his divorce into the eviction would be " _____ " to that case and that Judge _____ is NOT a party to the eviction.

The attached paperwork starts with the MEO from the above date and I have attempted to scan the remainder of the documents chronologically to show that Judge _____ sworn statements were not just false under A.R.S. secs. 13-2701 - 13-2703, and not just *material*, but that the perjury and false swearing **was** Judge _____ intentional means of victimizing us. Most of the criminal counts are just going to be highlighted in the attached PDF for now. An astounding amount of additional evidence is available to every investigator on this email. It is all very easy for you to request and for you to find even if I don't annotate every single felony count this email today. Please keep in mind most folks make a single call and felons like this are immediately charged. I will be tracking how much more effort you investigators make me do just to be taken seriously and I will widely publish your failures.

- I do not yet have the audio or even the written report, but I believe Judge _____ also revealed that he knew the child, along with me and his sister, were located and still living at _____ when he called the _____ Police Department at _____ this date to suspend all of my **parenting time** while the custody case was stayed, per _____ . " _____ " is how this is listed on the public incident report regularly published online by _____. It is easy to find Judge _____ CHILD CUSTODY reports to since he is the only person who makes them. Go ahead and look for another CHILD CUST call listed by _____ that isn't Judge _____. Since this report is being made to investigative agencies that I personally know pull things inaccessible to me all the time, I'd ask that you do the investigatory work in pulling any additional necessary evidence I do not have in this email.

- I received a call from my son's high school staff at approximately _____. I was told that multiple staff members had _____, Judge _____ son, in their office and " _____ " but that Judge _____ went to the school to prevent him from going there, to the _____ address. I have this call recorded, also, and will supplement this as needed to show Judge _____ knew we were located at _____ that day. That particular recording was made on a different device than I normally use and it is hard to attach it all on my self-imposed deadline. The recording clearly shows that Judge _____ referenced _____, trying to prevent _____ from returning to his well-known address that date. The school denied Judge _____ ' demand that they, too, **suspend our parenting time**

immediately, behind our backs. Just the evening before, he tried to convince [redacted] not to go to [redacted] and [redacted] rejected Judge [redacted]. The call from the school ended around that morning. The school rejected Judge [redacted] this morning, as did [redacted].

- Almost immediately after the school rejected Judge [redacted] second reference to that morning in order to demand opposed changes in **parenting time**, Judge [redacted] once again referenced [redacted] in relation to yet another [redacted] call, report # [redacted]

- [redacted] minutes after the call from the school to me ended. " [redacted] " as shown online; " [redacted] " is [redacted], [redacted] school. Judge [redacted] knew exactly where we lived and how to reach us both at home.

- Not even two hours after his [redacted] prior references to [redacted] trying to **suspend all of our parenting time**, at [redacted], Judge [redacted] filed approximately [redacted] documents **swearing** he did not know the address of [redacted] that he just reported to police and the child's high school earlier that morning as and for the main reasoning for keeping his court documents secret. It was just the night before when Judge [redacted] tried to get [redacted] to reject his own **parenting time** at [redacted]. He swore he had no idea where we were so that he could surprise us with his new **suspension of parenting time** that he obtained via his false statements and false swearing. He requested the Court take judicial notice of [redacted] regarding [redacted] eviction from [redacted] (highlighted in attachment, along with the most pertinent proof of these crimes that I still have access to this afternoon.) He ended this verified petition with another strategic lie, saying he copied me on these pleadings - neither my email nor my PO Office Box that he told the court he copied me to on the received any of those items from that day he promised he delivered. Judge [redacted] purposefully lied about serving me (addresses are boxed in pink in the attachment.). Judge [redacted] sought his restraining order and suspension of **parenting time** prohibiting all contact between me and BOTH of my children, repeatedly certifying in the Petition, restraining Order and elsewhere that he had no idea where I was residing (at [redacted]).

- Without serving or notifying me of the above, as certified and promised, Judge [redacted] emailed me guaranteeing I will be punished for asserting our son's interests in continuing to live at [redacted]. He notified me of his intent to punish us through both [redacted] AND - importantly - [redacted] (scienter). In his email PUBLISHING his NOA, he demands compliance from courts and parties with his instructions not to use his filings in any manner he does not personally "authorize or permit".

- Judge [redacted] enters his appearance in [redacted], the case about evicting his son from [redacted]. He filed his NOA as "Esquire" and used his [redacted] number, claiming he is the only "officer of the court" who may litigate [redacted] living at [redacted] on behalf of [redacted]. Judge [redacted] does not live at [redacted] and never has. He is not party to the underlying lease. Judge [redacted] demands all of his actions in that matter be sealed and goes on to intentionally, falsely state that his status as " [redacted] " renders him the only person who may litigate [redacted] continued residence at [redacted]. This was four days after he falsely swore he did not know [redacted] or I lived at [redacted]. Judge [redacted] asserted this false authority having been repeatedly admonished about his abuse of legal decision-making by multiple courts. He then went on to PUBLISH selected portions of documents from [redacted] to assert that false status in [redacted], demanding his personal approval for me to advocate for [redacted] rights to live at [redacted]. At the bottom of the page on which Judge [redacted] PUBLISHED partial documents from [redacted], Judge [redacted] complains that my defending [redacted] living at [redacted] "

" Judge goes far, far out of his way to falsely swear " absolutely abusing his status as an attorney, as a Judge, and as ". He demands several seals of his own NOA and other documents in , demands that the Court revoke my party status in that case, and insert himself as representing with regard to . Judge signs his NOA as an attorney, as an intervenor, as pro se, and ". Judge then openly PUBLISHES his NOA to the custody court noting his intervention, taking over of the litigation about , and sealing all evidence that he ever did so.

at , the family court JA said he would not provide Judge eviction documents from to the family Judge. Notably, no one on this email distribution list - all of whom were aware of Judge **parenting time** litigation except me - used this or any other opportunity to tell us about Judge secret pleadings, though Judge certified they were "served" via email and USPS on .

at was the first notification ever delivered to me of Judge secret litigation that he certified, under oath, that he emailed and mailed to me on , specifically because he didn't know we could be located at . Judge was furiously litigating that same date, openly, and actually copied me on his other litigation that day, so I did not see even this extremely late first notification that Judge had secretly litigated **parenting time** behind our backs. He did so via multiple instances of false swearing, and during the stay of he was openly fighting against that same day, as ordered in .

at , Judge called for "**Child Custody**" in and demanded they go to to enforce the **parenting time** orders that he swore, under oath, he needed BECAUSE neither me nor could be located at . I don't have this police report yet, but every investigative agency on this list has easy access to it and I'm asking you to simply get the report yourselves if you feel the need to verify immediately that Judge provided that exact address when he summoned the police directly to , with no hesitation and no doubt we were there. Judge swore, under oath, that he needed my **parenting time suspended** and needed a restraining order preventing all contact between me and **both** of my children BECAUSE we were not living at . He further swore that he couldn't possibly serve me because he did not know where to find me since we were not at . He also needed to further lie and say he served me via email on to make the remainder of his criminal lies work for his own criminal purposes.

- As Judge directed to enforce his suspension of my **parenting time**, he lied to the initial on-scene officers again - stating that he emailed his secret orders, as the orders, themselves directed he do. Judge did not comply with that order, instead lying again to the on-scene officers so they would use their force, under color of law, to enact the **parenting time** orders as Judge wished, not as the parenting time orders said. I have videos of Judge lies, as he stands on the sidewalk of , to support his prior false swearing. I also have videos of my first realization that Judge was already staged at with police, before I arrived. Judge arrived to before I even returned with dinner for my children, making it absolutely clear that he knew us to be home at the entire time he swore we did not live at and therefore needed to suspend my **parenting time** and needed restraining orders to keep me from even speaking to **either** of my

childrens. Judge [redacted] illegally inserted himself as the process server, the parent, the judge, the attorney, and the falsely swearing adult to look into his child's crying eyes to shock him with his illegal, falsely sworn commands that he leave [redacted]. [redacted] had just gone through multiple instances of Judge [redacted] trying to force him from his home and overcame them all, often with [redacted] assistance.

[redacted] at [redacted] - (also attached) - the first "service" of Judge [redacted] ' restraining order and suspension of all **parenting time** did not occur until **after** Judge [redacted] finally left with his traumatized child. The false certification of prior service and false swearing that he did not know we were at [redacted] were the ONLY means by which Judge [redacted] was able to shock and victimize [redacted], his sister, and me, against [redacted] will. Judge **felonies** are what traumatized [redacted].

[redacted] at [redacted] - Several people who assisted Judge [redacted] eviction of his son from [redacted], including the other eviction party, his attorney, and court personnel, discussed helping Judge [redacted] complete the eviction and help eliminate my income, all AT [redacted]. Attached. Immediately upon mentioning Judge [redacted], these people at [redacted] destroyed evidence at [redacted]. 3 additional videos of evidence destruction are available. Just like with the suspension of **parenting time** and the restraining order, no one told us that they arrived to [redacted] that day to lock us out, as Judge [redacted] wished and had advocated for through [redacted].

[redacted] - the above people contacted Judge [redacted] immediately to let him know that his eviction was completed. Judge [redacted] later testified that he was informed by the eviction Plaintiffs by [redacted]. Notices had been posted that we were not permitted at [redacted], but Judge [redacted] was personally invited back by those same people to [redacted] to personally photograph it and personally present those photographs in [redacted] to keep all **parenting time** suspended and keep the restraining order intact. No one, Judge [redacted] included, informed us that we were locked out. I was seeking services in another part of town that day and did not see Judge [redacted] lock-out until my daughter's school day was ending.

[redacted] - The Court began Judge [redacted] hearing after suspending my **parenting time** by stating that **parenting time** would not be addressed because of the stay ordered by [redacted]. Despite paying for it more than a month ago, and despite direct orders from the appellate and [redacted] Court, no one will allow me to access this recording. That is also attached, but later in the chronology because the refusal extended all the way through this week. The audio that most directly proves Judge [redacted] ' felonies is from this hearing and it must be obtained by you, the investigators. The Court refuses to allow me access to the entire file despite serial mandatory orders permitting me access to [redacted], but especially this direct evidence of Judge [redacted] ' felonies committed against [redacted] and me.

[redacted] - Judge [redacted] custody lawyer started by demanding that Judge [redacted] maintain [redacted] "

[redacted] - Judge [redacted] was sworn in as a witness against [redacted] and me. On direct questioning, Judge [redacted] voluntarily perjured himself - without any prompting by his lawyer if I correctly recall - by stressing " [redacted] " He went on to argue that his restraining order and his suspension of my **parenting time** should continue because of my lack of financial support. He also admitted during his direct testimony that he was working with the eviction parties directly. He confirmed - voluntarily - during his sworn testimony that he was personally informed of the lock-out of me and my [redacted]
