The Commission reviewed all relevant available information and concluded there was not clear and convincing evidence of ethical misconduct in this matter. The complaint is therefore dismissed pursuant to Commission Rules 16(a) and 23(a).

**Re: Complaint Regarding Judge [redacted] for Failure to Enforce attempts to attain financial information and making a ruling without proper information.**

**Re: [redacted] - Perjury, Concealment of Income, Financial Misconduct, and Obstruction in Family Court**

To whom it may concern,

I am writing to formally request your office's investigation into **Judge [redacted] for Failure to Enforce attempts to attain financial information and making a ruling without proper information.**

**And [redacted] for a pattern of perjury, concealment of income, and intentional obstruction committed by [redacted] during ongoing family court proceedings in [redacted] County, Arizona.** [redacted] has repeatedly misled the court, concealed substantial income, and refused to comply with lawful discovery requests. These actions not only obstruct justice and make a mockery of the legal system, but they also directly harm my children's best interests and have resulted in unnecessary litigation expenses.

**Pattern of Concealment and Misrepresentation**

[redacted] has filed multiple Affidavits of Financial Information (AFIs) that grossly understate her income and misrepresent her financial situation.

For example:

Bank records show that from [redacted] alone, [redacted] deposited [redacted] into her [redacted] account, reflecting an annualized income of over [redacted]. **She has other accounts** which she never provided the courts any information.

[redacted] and [redacted] - He paycheck for [redacted] goes into one of these. On [redacted], she reported [redacted] in business income. [redacted] was dissolved

in [redacted]. Her income is not reflective on her monthly amount on AFI.

On [redacted] she reported [redacted] in business income [redacted] was dissolved in

[redacted]. Her income is not Reflected on her monthly income on her AFI.

In addition, she omitted other income streams, on her AFI's monthly income total including:

Payments from [redacted] ( [redacted] ). Attached deposits.

Her mother's Social Security income which [redacted] controls.

Household support from her live-in boyfriend.

She also has Ongoing deposits from businesses (that have been dissolved) despite those businesses being revoked by the State money being deposited into personal account.

She has other accounts that she has never provided documents to the courts. Ending Ending in and only gave the courts months from her acct ending SHE WAS ASKED FOR years.

### False Statements Under Oath

has continued to list dissolved businesses ( ) on official AFIs and under oath in court hearings, despite their formal dissolution. She also has failed to provide bank accounts/statements during interrogatories, despite continually being asked by the Judge, attorney, court filings, and a deposition.

she was also supposed to provide tax returns and schedule "C" as per the AFI and requests from attorney not transcripts which are condensed forms of tax returns that don't show a clear picture. Judge Told her she needs to provide all financials on several occasions.

Her tax transcripts further highlight the deception: -

Reported only in gross receipts, while claiming in cash vehicle purchases and in insurance expenses as deductions. On her AFI She said her income for was and stated in her deposition her business was created to claim 1099 income solely to care for her mom yet her income for caring for her mom is And neither of these numbers are included in her monthly gross income on her AFI.

: Reported in gross receipts against nearly in expenses (supplies, auto, utilities). But according to her she just cares for her mom through an agency and gets a 1099,

Records missing out of order.

These returns are not only inconsistent with her bank deposits but also appear deliberately falsified to reduce her reported income.

### Obstruction of Justice

On Several occasions, My attorney filed a Request for Production of documents seeking years of financials, including tax returns, W-2s, 1099s, and bank statements. On the Court overruled objections and reminded her of her obligation to produce the requested disclosures. She has continued to refuse compliance, obstructing discovery and denying the Court accurate financial information. Judge has also told her she needs to provide this information, yet didn't enforce it and made a ruling without knowing or including all her income sources.

Most notably, during her 72-page deposition (attached as Exhibit G), repeatedly refused to answer questions fully, evaded direct inquiries about her income and bank accounts, and attempted to run up attorney's fees through obstruction. The transcript demonstrates a clear intent to withhold material information and manipulate the proceedings.
