Disposition of Complaint 26-061

Judge:

Complainant:

ORDER

April 21, 2026

The Complainant alleged a superior court judge made improper decisions and did not follow the law in a probate case.

The role of the Commission on Judicial Conduct is to impartially determine whether a judicial officer has engaged in conduct that violates the Arizona Code of Judicial Conduct or Article 6.1 of the Arizona Constitution. There must be clear and convincing evidence of such a violation in order for the Commission to take disciplinary action against a judicial officer.

The Commission does not have jurisdiction to overturn, amend, or remand a judicial officer's legal rulings. The Commission reviewed all relevant available information and concluded there was not clear and convincing evidence of ethical misconduct in this matter. The complaint is therefore dismissed pursuant to Commission Rules 16(a) and 23(a).

Commission member Delia R. Neal did not participate in the consideration of this matter.

Copies of this order were distributed to all appropriate persons on April 21, 2026.

I do not consent to being fraudulently disenfranchised from rule 542 ARCP rule 106 completeness of sworn testimony evidence rule as ratified by the Arizona Court in for civil / criminal cases that enable overcoming hearsay labels in sworn testimony issues - especially at trial where mandates on Truth must prevail against all other naysay without exception so that evidence tampering doesn't occur..! No other option must be allowed...!!!

I do not consent to the improper and illegal removal of my right to a jury trial of six persons in cases of probate when there are contentious issues when the statute requires the judicial authority to inform from day one (which never happened) therefore nullifying their application of rule 29 waiver because proper protocol was never followed in the first place..!!

And if the attorney in fact had a legitimate case he would have bolstered his legitimacy by allowing the jury to hear his facts except that he didn't have any.!

1/5 1/6

Most especially when attorney used the four different fraudulent breaches that he wicked accused me of; none of which ever actually occurred because the plaintiff called me at least 15 different times and was updated every single time but would have resulted from the mens rea malice oriented order to the plaintiff to not communicate - which timing the plaintiff actually lied about intentionally.!!

I do not consent to attorney ordering illegally and imorally to not properly communicate with the executor of the estate because it became the clearly fraudulent Nexus for fraudulent allegations that have no evidence in truth, facts or reality whatsoever. Nor do I consent to the extrinsic fraud upon the court with the assertion that it was requested of the court to determine the inheritors of the estate when there exists absolutely no document to substantiate that knowingly fraudulent assertion...!!

As this is a violation of AZ Revised Statute 13-2804.!

The non-communication issue was admitted at trial by the plaintiff under oath and has been allowed to stand as an admitted fact by attorney !

And by extension The county Court as well.!

And furthermore the non-communication timing and circumstances under which they occurred also was suborn by perjury at trial under oath in violation of ARS 13-2702 a class 4 felony in Arizona by Attorney.!

Which he doesn't seem to be concerned about maybe perhaps because of illegal conspiratorial collusion with the judicial authority on the case which by itself is totally gross extrinsic fraud in violation of US vs Throckmorton (1878) making the case zero on its face as a basic element of proper untainted juris.!

And then there is the recusability issues that even the judicial authority (admitted of himself) at the pre-trial hearing held on of at in the morning prior to the arrival of my attorney who was tardy by 10 min and didn't observe the factually true occurring statement of the case judge about himself, then there is the recusability issue of him having adult disabled children at home which is disclosed in his mandatory election documents which creates a recusability conflict of interest as the plaintiff is mentally challenged and then there is the issue of him being of the same religious faith as both the attorney and the unethical real estate professional that duly conspired fraudulent testimony at trial lying to the judge about himself not receiving any remuneration at all for his testimony when he in fact ended up with the forced sale contract of the home that we were to inherit by codecil (also disclosed in reelection docs).!

And the forced eviction at gunpoint which was done completely illegally was done as a writ of restitution while the case was still being heard in the appellate Court in violation of the rules for relief of fraudulent judgments that allow the appellate Court to determine what is going on with the case rule 85 and another protective rule were completely wickedly violated.

I do not consent to being knowingly and fraudulently accused of opening probate late when the material fact of the covid crisis intervened in ways beyond My control mitigating the possibility of opening probate at all especially when there is a 6-month cooling off time period in Arizona for these very reasons. And furthermore there were strict moratoriums on further interstate travel as an undeniable documented fact.!

Which by the way has been completely illegally and maliciously ignored on purpose in mens rea malice.!

Especially when the covid crisis lasted for most of 2 years and did not allow me to open probate from miles away perhaps the real issue is that the attorney resents the fact that he was not hired from the get-go and that's the real issue.!!

Of pertinent material fact is that individuals are attached to the Arizona of them are active and the two public law schools in Arizona pump out proximately new law students every single year period causing the net income of most attorneys in Arizona to drop minimum in the last two years alone and then there is the study of fraud in American states that was conducted finding that Arizona was in first place and then there is the book written by former judge (now deceased) (of the tome) - the fraternity; the collusion between lawyers and judges.!

Which personal retaliation also becomes extrinsic fraud upon the court in violation of Throckmorton.!!

I do not consent to fraudulently being labeled a vexatious litigant, when that false allegation has no truth whatsoever in fact based reality because I had a multifaceted multi-part request for the same proper emergent interdiction by Judge who was the original probate case opening judge. And is clear evidence of conspiracy to defraud of entitled rights under Arizona statutes to be heard in the entirety by the court therefore becoming by extension gross and unacceptable violations of ARS 13-2702 and 2804.!!

I do not consent to being illegally evicted from the home I was to inherit by codecil that was improperly set aside in limine and the perjury about the gambling habit of the plaintiff, that caused the decedent to duly change his will because she had admitted it to him in person over the phone and I confirmed that in person with her over the phone; and my sworn testimony was considered hearsay which is quite simply evidence tampering in violation of ARS 13-2408 and the legal memorandum of understanding that she did sign; making it a binding legal document and the blatant violation of rule 65 witness exclusion from the trial courtroom which testimony was contrived on the face and knowingly false by in violation of ARS 13-2702 uncovered by my attorney upon Cross Examination turns out she had no reason to come out to Arizona whatsoever except to corroborate the LIE because of an underlying college debt of !!

I do not consent to my sworn testimony being improperly and fraudulently labeled as hearsay in an attempt to tamper with the verbal evidence offered under oath to fraudulently attempt to disempower the factual veracity of said testimony as it is a violation of ARS 13-2804 + by extension of ARS 13-2702 as well.!

I do not consent to being lable fraudulently as a four month window creditor when that knowingly false + fraudulent statement and knowingly false allegation has absolutely no basis in Truth Facts or Reality of any kind whatsoever and is an attempt to fraudulently mislabel and affect my clearly entitled status under multiple protective Arizona statutes as executor.!!

Most especially when Arizona statutes allow me as the executor to be paid first before all other inheritors!

Which assertion violates ARS 13 - 2804 + 13-2702.!

I do not consent to my trial docket time being maliciously eaten up on purpose by a fraudulent conversation about illegal back rent falsely owed to a person willing to perjure ad infinitum about known and easily provable facts about gambling which primary fact her and her husband both called to complain to my wife and I about on more than one occasion with my nephew giving confirmation to the fact at the time of my sisters call to us in tears (in the background) of the complaint to which we were and are true witnesses there of. In point of true fact.!!

I do not consent to being illegally victimized by a proven corrupt attorney acting illegally on behalf of his client who is provably challenged in telling the truth in a court of law under oath in various ad litem roles and in fact is violating all of his ethical rules and responsibilities toward his client by permanently evil destroying her relationship with her brother and duly perpetrating outrageous unjustified fraud against him and disempowering him from his statutory obligation to seek out the stolen estate resources in !

I do not consent to my father's will being illegally and grossly violated by a non-inheritor being illegally paid in violation of the will and the plaintiff who has been presumably paid in full on a regular basis and is still working with her husband at the casino where they flushed all of their untold tens of thousands of dollars down the casino toilet and now cannot afford to retire as a result; working there now as security and janitorial services providers.!!

I do not consent to the Court violating many in multiple federal case laws that say specifically as a pro se litigant that I am not to be held to the same high technical standards as an attorney because I have not been duly trained to operate as one and the requirement violates the extrinsic fraud stipulations of US versus Throckmorton; the Arizona Court rule notwithstanding because it is a violation of federal supremacy clause where federal laws pertain and every state law rule or regulations must submit.!

Therefore I have been illegally dismissed by the Arizona Court upon the request of the attorney and I have been illegally dismissed by the Arizona Court as well which is clearly and blatantly violated Federal supremacy clauses.!!

And it turns out to be that there is a group conspiracy to defraud me of my legally entitled inheritance rights and make me pay for the gambling debt, for the late and unpaid college debt, for the attorney fees that are fraudulent because of the case being fraudulent and also trying to illegally, did I say illegally force me to pay rent not due under any reasonable circumstances whatsoever ; most basically because we were to duly inherit the home, there was no discussion at all about paying rent prior to of when EVIL mentioned it + there are NOT ANY documents to that effect in existence whatsoever and the home was a private residence not registered as a rental property and had become heavily damaged with 23,000 gallons of water that ingressed the home while we were on vacation in for 3 weeks that required it to be repaired over a 2 year period of time, which my insurance was able to mitigate the damage of, requiring us to stay in a local hotel for at least one year and sleep on the floor for another entire year and the damage is still not completely repaired yet.!

I do not consent to being illegally indecently and morally and wickedly induced without any proper justification whatsoever to become the debt slave of a person who gambled their funds away created their own financial problems came to Arizona on funds knowingly stolen from my wife to lie knowingly clearly viciously and wickedly at trial under oath who gimped into the court but galloped out of court upon getting a highly improper ill-founded and fraudulence based judgment that is completely illegal under any and all circumstances without exception a proven fact.!

I do not consent to the court allowing the miscreant attorney to violate Arizona rules of civil procedure 5.3 b that absolutely require an attorney to notify all of the litigants in a case without exception sufficiently prior to moving business location which never ever happened until causing me to submit my objection which he sent proposal for distribution to me authored on as I recall I received it on the of and I responded the following the then on the I received notice of a return I picked it up on the I returned it to his former address on the and it got then rerouted to his new address and sign for on the of and then a hearing was duly scheduled perhaps a couple of weeks later by the court.!

And last but not least I do not consent to the case Judge not reviewing any of the duly submitted objection evidence at all until the objection hearing took place which an anonymous county Court clerk disclosed to me from the record today as a fact which is completely improper and is a clear indication of his intent to defraud me of all of my legal rights to be heard and responded to in a proper legal fashion to the proposed distribution from the estate which proposal the wicked attorney proposes that after most of years of supporting the estate that I as the executor and an inheritor get not a single penny of and then is illegally induced to pay the miscreant Co inheritor on top plus all fraudulent attorney fees and in rent subsidies even though I was clearly entitled by a legal codecil to live in the home rent-free as the owner.!!
